

Baby Bad Boy

Vin de France

The “Vin de France” legislation allows many unprecedented blendings and allowed the Thunevin team to test a grenache-merlot blending for the very first vintage (2009) of our Baby Bad Boy

Since then, its blending has changed according to the selection of fruity wines tasted around the properties managed by Jean-Luc Thunevin. The selected lots will be a part of the blend of this yummy cuvée!

Technical information

Soil: clay, clayey limestone, sandy

Fermentation and ageing in stainless steel and /o concrete tanks

Average age of the vines 15 to 20 years

Production 12 000 bottles

Blend for vintage 2016 : 100% merlot

Tasting notes

This a wine that can be friendly and mischievous, with warm notes while keeping its freshness

Baby Bad Boy is always displaying this duality while keeping its natural balance, its sunny side does not exclude the fresh notes, the fruit expresses itself with finesse and is well balanced... A young one... but of superior quality.
